

New Holland 700 Series Rotary Cutters Standard-duty Models

736GC 737GC 738GC

Cut through the tough stuff on your property with a New Holland 700 Series standard-duty rotary cutter. You won't find a more reliable rotary cutter that delivers greater performance in tall grass, thick weeds and medium to heavy brush than a new 700 Series standard-duty model.

60", 72" and 84" cutting widths

Available in three models with 60", 72" and 84" cutting widths, 700 Series rotary cutters are built with heavier decks, stronger gearboxes and greater cutting capacity for dependably maintaining larger acreages. Designed for use with compact and utility tractors from 30 to 65 maximum horsepower, their productivity matches with the popular line of New Holland Boomer™ Compact and Utility tractors.

Long-life, worry-free performance

There's nothing standard about 700 Series standard-duty cutters. Rugged design features deliver exceptional durability and reliability:

- Larger discharge area improves cutting and overall performance
- Heavy-duty A-frame and stump/debris jumper ensure long life
- Smooth, rounded rear deck assists material cut and flow
- 3/8" x 3 or 1/2" x 4" heavy-duty high vacuum blades mow cleanly and smoothly
- 3/16" deck ring adds protection
- Bolt-on skid plates are counter-sunk – won't catch on debris
- Extra heavy-duty, four-plate slip clutch and flexible top link add protection
- 65-hp gearbox rating with 5-year warranty (limited to defects in workmanship/material)
